

PATENT  
**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

**Applicant:** Shigeto Inui

**Examiner:** unassigned

**Serial No:** 09/778,258

**Art Unit:** unassigned

**Filed:** February 7, 2001

**Docket:** 14309

**For:** DIVIDER

Assistant Commissioner for Patents  
Washington, DC 20231

**DECLARATION**

I, Anna H. Scheblein, the undersigned, hereby state the following:

1. I am a legal secretary at the law firm of Scully, Scott, Murphy, and Presser (hereinafter SSMP) located in Garden City, New York, United States of America.
2. Our firm represents NEC Corporation (hereinafter NEC) in numerous U.S. patent matters.
3. In my capacity as legal secretary it is among my responsibilities to prepare the documents for filing new U.S. patent applications. It is the procedure at SSMP for the secretary to prepare all the transmittal letters, obtain the necessary checks, copy the application papers, including specification, claims, abstract and drawings, and verify that the Express Mail numbers on the transmittals match the label and certificates of mailing. In particular, the specification pages are counted to make sure that all the pages are there and the application is complete. Once the application has been signed, the application papers are deposited in a Patent and Trademark out box in our docketing department. The docketing clerk then double checks that all the paperwork is complete. (See, Declaration of Janet Grossman).
4. Further, a New Patent Application Checklist is filled out, wherein the number of pages of the specification, transmittal pages and drawing sheets are listed, as well the check amounts and Claim of Priority, Information Disclosure Statement, etc. Enclosed is the checklist for docket 14309 which was prepared by

me and initialed on the date the application was filed. The checklist indicates that I counted 22 pages of specification.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

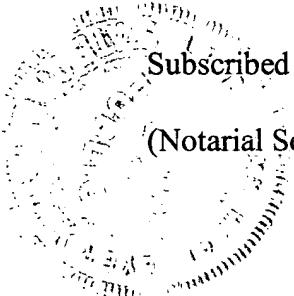

Dated: May 9, 2001

Anna H. Scheblein

Subscribed and sworn to before me this 9th day of May 2001.
